

**YMCA**  
**CAMP MOHAWK**  
FOR GIRLS • EST 1920

Virtual Camp is our latest alternative to Mohawk overnight camp. We have developed a program that is flexible to your family's summer schedule to help your daughter get reconnected to friends, counselors, and have some fun camp activities to do in the morning. We have adapted some of our favorite crafts, theme nights, games, etc. to bring through the screen into your home.

Every morning around 10:30 (your daughter's counselor will choose a time around that time) the group will meet on GoogleMeet via GoogleClassroom where a counselor will lead a 30-40 minute long activity. These activities can include crafts, theme days, scavenger hunts, etc. If they ever involve any materials the counselors will let you and the children the day before. Our counselors have had a fun time getting creative and planning some activities for the kids!

The evening meetup will take place around 8:00 every night, and this will also take place on GoogleMeet. This nighttime meetup is meant to resemble devotions, which is a long time Mohawk tradition where the campers are posed with a question, and have the opportunity to answer it in a safe and judgement free environment.

Our main goal with Mohawk Virtual Camp is to bring the spirit, and connections to you. We know that the last couple of months have not been easy on the kids, and not coming to camp has been especially hard. Our Virtual Camp counselors are very excited to meet the campers, and start getting to know them, and having fun!
